

## THE DUTY OF THE HOUR.

The Dayton News-Reporter says:

Perhaps never in the history of Nevada has there been such an exciting campaign, or one in which greater interests were involved, than the one just ended. Certainly there never was a result more unsatisfactory or more deplorable. It is unfortunate that the State has gone Republican—not because the party of that name has been successful—but because the interests of the whole people have been outraged. The question at issue in the past campaign was not a party question. It was a square fight between the people and the corporations.

The corporations have won, and the people must take the consequences. Coin in the hands of unscrupulous men was used to defeat the wishes of all good citizens. But the men who disbursed the coin are angels of purity compared with the things in the shape of the men that they used to accomplish their purpose. Nevada has emphatically proved her right to the distinguished title of "Rotten Borough." The coin which was used in the late fight came from the coffers of the Southern Pacific Railroad; that coin was wrong from the people of this State by extortionate methods. It was appropriate that it should be used to buy from them the right of further extortion. And this coin was turned loose in every precinct in Nevada for the purpose of securing the election to the United States Senate of Wm. M. Stewart, a faithful servant and subversive tool of the railroads. The money which was spent for that infamous purpose was the chief influence which defeated good men for State and county offices throughout Nevada. We have a contempt for the creatures whose votes can be purchased for a few paltry dollars; but it is the same contempt we have for the rattlesnake—we must watch them. Bill Stewart has, with the assistance of such creatures, secured a Republican majority in the next session of the Legislature. All the Republicans who will sit in that body, however, who were not elected in the past campaign to them cannot attach the stigma of having secured their seats by the aid of corporation gold. There are also—notwithstanding the railroad cyclone which swept over the State on the 2d of November—some Democrats who will have a voice in choosing a United States Senator for Nevada. They will not vote for Stewart and the independent Republicans should not. The two classes should operate together and use every honorable means to send a home man, a pure man—Democrat or Republican—to Washington. Let them pull together and such a result may be accomplished.

It would be a fitting rebuke to carpetbagger Stewart and the railroad corporations, and would go far toward removing the odium which attaches to the "Rotten Borough."

Presidential candidate.

A New York dispatch of the 11th says: "There goes a man that will be the next President of the United States," said a veteran member of the Union League and an influential delegate to the last Republican National Convention, today, as he pointed to the square figure of Senator Sherman, of Ohio, as he glided across the street in the direction of the Fifth Avenue Hotel. Gossips at the Democratic Club, who always pretend to know a great deal, affirm that the Senator from Ohio is here for the purpose of following the tracks of Blaine, who has been making such headway of late, in this part of the country, as to make the Western statesman uncomfortable.

The Sun, in its editorial columns, has been quietly boozing Samuel J. Randall for President in 1888.

Present indications show the election in California, of a Democratic Governor, Secretary of State, Controller, Treasurer, Clerk of Supreme Court and one Supreme Judge. The Republicans elect the Lieutenant Governor, Surveyor General, Attorney, Superintendent of Public Instruction and two Supreme Judges.

Christian A. Cook, in a complaint in the San Francisco Superior Court, demands judgment against H. M. Yerington for \$500 for professional services as physician rendered to defendant's daughter in November, 1885, by curing her of a cancer.

From all parts of the State come reports that the Republicans elected to the Legislature are bucking against Stewart and assert that they will not go into caucus.

## A NO-FENCE LAW.

The Winnemucca Silver State says:

A communication from W. H. Mills, Land Agent of the C. P. R. R., published in the Reno Gazette of last Tuesday, appears in the Silver State to-day. It relates to Nevada stock ranges and herdsmen's rights, and is doubtless intended to sound the people of Nevada on the subject of a no-fence law. Though dated October 22d, it was withheld from the public, probably through fear of its effect on the election, consequently there is no means of ascertaining the sentiments of the people on the question involved except through the medium of the press.

While Mr. Mills discusses the subject of herdsmen's rights ingeniously, the tenor of the communication proves that its object is to create a sentiment in favor of a no-fence law, though, seemingly, the writer endeavors to conceal that fact. Keeping in mind that the object of the communication is to secure that result, the arguments advanced will fail to convince those who have given the subject any attention that a no-fence law would be beneficial to the interests of Nevada. The assertion that the ownership of narrow strips of land contiguous to water courses such as Quinn river gives the proprietors control of an extensive range under existing conditions does not prove that it would benefit the public to have a law enacted which would compel the owners of stock, which might stray or range on the unfenced lands, to pay damages. If such a law existed it would range on the public domain outside these narrow strips could be impounded and their owners entitled to damages should they even cross those belts to quench their thirst in the streams which course through them. Then the owner of a cow along the line of the railroad would be liable for damages if the animal ranged on even crossed the unfenced lands of the railroad company.

Nevada, with the exception of a valley here and there like Paradise and Big Meadows, is not an agricultural country, and unless the climate changes, or water is procured from artesian wells it cannot be. Its mountain and sagebrush plains are available only for stock ranges, and it would seriously cripple the beef and wool growing interests of the State, without benefiting the agricultural interests, to compel the owners of cattle or sheep to hold them off of the unfenced lands of the railroad company or private individuals.

It might be advisable to pass a local option law regarding fences, so that farming communities, if so disposed, can regulate the matter to suit themselves, but a general no-fence law will not do for Nevada, as it would necessarily drive many out of the country in business, thereby reducing the taxable property of the State, and what the railroad company would gain by having its lands virtually fenced by law it would lose in increased taxation on its railroad, buildings, and rolling stock.

## BIGG'S OR DIADEMO BLDG.

The Sentinel remarks:

The Enterprise has lately had a good deal to say about the interference of Federal officers in the politics of this State. In this country the Constitution forbids any abridgement of the freedom of speech. The President has not the right and has never attempted to do so. But he has the undoubted right to insist that public servants shall not neglect the public business to take part in politics. In other words, politics must be subordinate to official duty. It will be time enough to arraign the Federal officers of Nevada when it shall appear that they have neglected to perform any of the official duties devolving upon them. It is within the personal knowledge of the writer that the strictest application of this rule would not involve any Government officer participating actively in the recent campaign in Nevada. In our own case we had a month's leisure from official work and were at liberty to devote the time to politics or anything else. If we succeeded in impressing the Enterprise that we were "offensively partisan," we are satisfied with the manner in which we employed our otherwise unemployed time. There could be no better test that we were discharging a big public duty to society, for the Enterprise was advocating everything that was bad in morals and politics. Discussing Civil Service, and the privileges of Federal officers, the New York Graphic, just prior to the late election, published an article which states the rule quite forcibly and correctly.

The Ogden Pilot says:

There is great excitement in Nevada over the result of the recent election. It is claimed that the State was debauched as never before by the untrained and corrupt use of corporation coin, and that unless Stewart is defeated for the United States Senate, the appellation of "rotten borough" will become indelibly stamped upon the commonwealth. With the lights before us at present, it looks as if the sale would be completed when the Legislature assembled, although there is a strong concerted effort going on in the Republican party to save the honor of the State by electing Wm. Powning, Daggett, or some other bona fide representative of Nevada's interests.

## SENATOR EDMUND'S LETTER.

S. F. Call.

Senator Edmunds has written a letter which will probably be kept in a safe place until the Presidential campaign of 1888. It will be remembered that in 1884, after the nomination of Blaine, the Vermont Senator relapsed into a state of masterly inactivity. He scarcely lifted his voice in support of the national Republican ticket. Now, there is a decided and a growing feeling in favor of the candidacy of Blaine existing in the East and, accordingly, when the Vermont Legislature recently prepared to elect a successor to Senator Edmunds, one of the Representatives, evidently having Blaine in mind and remembering Mr. Edmunds' attitude in 1884, sent him the following letter:

STATE OF VERMONT,  
HOC: OF REPRESENTATIVES,  
MONTPELIER, Oct. 14, 1886

To Hon. Geo. F. Edmunds, U. S. A.:  
Dear Sir:—I write in behalf of several members of the General Assembly, before voting for a United States Senator, to inquire respectfully if we can have any assurance of your support for the nominees of the Republican National Convention for President of the United States in 1888. Very respectfully,

E. Fisher,  
Representative from Bethel.

To this the Senator replied as follows:  
BURLINGTON, VT., Oct. 15, 1886.  
To Edwin Fisher, House of Representa-

DEAR SIR:—I have yours of the 14th, and replying with candor and all kindness I would express my great astonishment at receiving such a communication. My standing and conduct in and devotion to the Republican party for the last twenty-five or thirty years is, I think, perfectly well known to all intelligent people in the State, and perhaps to a considerable number beyond its borders. If in any one or more of those long years my behavior has been such as to justify any honorable and honest Republican in suspecting my fidelity to our party or to those great principles and purposes, then that Republican ought not, I think, vote for me whenever I am proposed for any place. If the contrary is true, as it is, such a question as yours is one to which a self respecting man can make no reply. Not doubting that you will appreciate the force of what I have said, and with every good wish for you and all sincere Republicans and for our great party, on which I have always depended the finest liberty and largest welfare of the people of our country, I am, respectfully yours,

Geo. F. Edmunds.

Whether this was satisfactory or not, does not appear. At any rate Mr. Edmunds was re-elected. It would be interesting to know whether Mr. Fisher thinks he received a specific answer or not. To the average reader it will appear a most skillful piece of dodging if the gentleman in question were able to find in the letter, or better in the margin, anything like the nature of a promise to support the Republican nominee in the active and beauty manner clearly intended, they possess a skill in cryptic notation not accorded to the average individual. He says he will support the party and he undoubtedly will. If Blaine is nominated he will probably vote for him and advise any one who asks his advice to do the same. But after reading both the above letters the impression is formed that if the nominee should be Blaine and not Edmunds, the latter will do as he pleases, and that no doubt, will be as he did in 1884.

## THE CAMPAIGN NOT OVER.

The Eureka Sentinel says:

The western papers assert that General Powning and Bob Lindsay are going to take the stamp, with the view of convincing the people that Mr. Stewart should not be sent to the United States Senate. It is none of one business, but we take occasion to gently assure these gentlemen that the thing won't work. We speak from experience. We put in a month at it, and all we accomplished was to make the backers of Mr. Stewart put the screws on their men a little tighter and go down into their pockets a little deeper. That's all. The proposed post-election campaign will result precisely the same. But why wasn't everybody out shouting before the election. That was the time to talk. The die has been cast, and it is hardly in order to do it all over again. We have had enough. Langy are at a discount. It takes money to do business. We protest. A long suffering people have some rights that even stampers of sheet-iron lungs should respect. They can stand the doubling of freight rates by the railroads to get even on the election, but they cannot stand further bargaining by stamp orators in this year of our Lord. They want a rest and are entitled to it. However, we know of numerous balls and brass bands throughout the State that may be had by the gentlemen in question if they mean business. But we won't vouch for the "voracious" and "long continued anopheline" which the newspapers work into their reports of the old-fashioned political meetings held prior to an election. This after campaigning is a new wrinkle. It might draw for its newness and novelty. Pitch in gentlemen, we have had our say and prefer to be a looker-on. But we are for the bottom dog.

### BREVITIES.

Col. M. N. Stone is in town.  
Budd Marsh is gone to Idaho.  
Gov. Stevenson was in town yesterday.  
Reno is being flooded by a delightful weather.

Reno had another earthquake shock Friday night.

The Hopkins delinquent sale took place yesterday.

A. Abrahams returned from San Francisco yesterday morning.

Stocks were strong yesterday. Con. Va. was 16 and Ophir \$14.

Fogus's flour mill is running night and day, and turning out lots of good flour.

J. W. Phant, of the Virginia Chronicle, came down from the Comstock last night.

The Reno Knights of Pythias will pay their Virginia City brethren a visit next Thursday.

For a nice Sunday dinner go to the Depot Hotel, where you get all the delicacies of the market.

Father Maloney has returned from his trip north, and will have Mass today at the usual hour.

Rev. G. W. DeLaMatte, Superintendent of the Nevada Mission of the M. E. Church, is in Paradise, and will preach there this evening.

Methodist Episcopal Church—Preaching at 11 a. m. and 7 p. m. Sunday School at 12:15 p. m. Prayer meeting on Thursday evening at 7 o'clock. T. P. Bralshaw, Pastor.

### STATE FAIR MATTERS.

Ten Days Next: Nov. 23, 24, 25, 26, 27, 28, 29, 30, Oct. 29.

President Stevenson, Directors White, Flint, Evans, Mulcahy and Powning, met yesterday and closed up all matters pertaining to the State Fair of 1886, excepting the President and Secretary's report, which will be made out and submitted to the Governor next month.

On motion of Mr. Powning it was decided to have a State Fair for ten days next year, commencing September 21st and including October 1st.

### Reno's New Addition.

Reno has had and is having a healthy growth. The new enterprises being started is already increasing her population. The fact that there is not a desirable house in town vacant, verifies the assertion. As the town now is there are comparatively few vacant lots on which to build.

To meet the present and future needs C. C. Powning in June last, purchased the Forbes tract of 110 acres, skirting the river, west of town, and has laid it out in lots which he will soon put on the market. The addition permits of the extending of First and Second streets through the entire addition, and the cross streets will connect with the streets running north and south.

There will be a broad avenue around the entire addition which will afford a most pleasant drive or walk. The plot contains thirty blocks, whole and fractional, and each whole block contains sixteen lots 50 x 140 feet.

The addition being so near the center of the town, fronting the river, easily drained, away from the fire center, will make it most popular as a place for residence.

A FINE BEEF.—One of the finest specimens of beef that has been slaughtered in Reno, hung yesterday in front of Henry Rohr's shop. It weighed, dressed, over 815 pounds. One-half was purchased by the Depot Hotel, the other half by the Palace restaurant. It was a four-year-old and was from the herd of Ben Leete.

### NEVADA FOR NEVADANS.

The Virginia Chronicle remarks:

If the Enterprise will only adhere to its present policy of attempting to ridicule the efforts of General Powning to prevent the disgrace of Nevada, sending Mr. Carpet-bag Stewart to the U. S. Senate, it will do much in the way of causing respectable people of all parties to see what a gross injustice has been done. Mr. Powning and other leading men of the Republican party—who are actual citizens and are entitled to whatever honors that party can bestow—in order that a tool of the Central Pacific, which is and always has been an obstruction to the progress of Nevada, may be sent to represent that grasping corporation, not the people, in the United States Senate.

The opinion is rapidly gaining ground that Stewart's fight for the Senatorship has only just commenced. There is a bitter feeling against him all over the State, and he must be aware ere this that he is not the choice of the people. Though the coveted prize seems to be within his reach, it is beginning to look as though it might as well be a mile off. Let the Democrats and foot-loose Republican members of the next Legislature combine; let them select any bona fide resident of the State who is capable and teach the Central Pacific Company that Nevada will not allow its carpetbagging hireling to misrepresent them in the United States Senate.

There will be eleven Republican hold-over Senators in the next Legislature who are not, or should not be, committed to the support of Stewart for Senator. Add these to the Republican members of both Houses that have just been elected as anti-Stewart men, and let the Democrats stand in with them, and it will not require a professor of mathematics to demonstrate the fact that Stewart can yet be beaten.

### Blaine's Terrible Card.

New York Sun.

If Mr. Blaine should run against a strong Democrat in 1888, the combined Prohibitionist and Mugwump secession would naturally result in defeating him again.

But if Mr. Blaine should run against the strongest of Democrats, with Mr. Henry George in the field as the Presidential candidate of the labor organizations, developing throughout the country anything like the strength he showed in this town, could Mr. Blaine be defeated?

What would the Republican loss in Prohibitionist and Mugwump votes be, compared with the Democratic loss in votes for the Labor candidate.

As things stand to-day, it would seem to be a pretty sure card for Brother Blaine. Do anybody think he doesn't see it?

The People's Record says:

The People's Record says: The political battle terminated Tuesday evening, and the returns indicate a Democratic victory as far as Lincoln county is concerned. The Republicans killed themselves at the very jump.

They placed upon their ticket a man, who is ignorant and low in character, who is a sworn enemy of the country and has no regard for either oath or plighted. He is one of the leaders of the land of Mormon vassals, who on the Fourth of July, 1883, insulted the loyal people and country, by floating the flag of the country with the union downward, and who proudly boast that they will make the land flow with blood.

Who has this man ever proven true to, except Democratic candidates. He went to men running for office, and friends of men running for office, making promises to aid them if they would aid him, and who of them did he keep his promises to, except one who told him that he had not any favor to ask of either him or church. Notwithstanding that Lincoln county is strongly Democratic, a part of the Republican county ticket would have crawled into office, but as it now stands it is pretty certain that the entire county ticket has been defeated, and deservedly so. When the Republicans court favor with a disloyal herd of Mormons, by placing the names of church functionaries on their tickets, who glory in their disloyalty to the country, they should be wiped out every time.

### Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

21 SWF-IV

General C. C. Powning is in the field as a candidate for the United States Senate and deserves the highest consideration at the hands of the next Legislature. To him must be attributed the defeat of Stewart's hopes in Washoe county, and he deserves the vote and support in joint convention of the elected delegation whether they are Democrats or Republicans. We have no doubt that there will be a friendly rivalry between Wren, Daggett and Powning for the honor of the Senatorial election.

**PARKER'S MAP OF NEVADA.**

**PARKER'S NEW MAP OF NEVADA.**

THIS NEW AND BEAUTIFUL

**MAP OF THE STATE,**

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Fountains and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout cover for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,
